Sergeant-Major Fawcett,
Box 1004,
Orillia.

Dear Mr. Fawcett:

I have your little book only a portion of which I have yet been able to read, though what I have seen seems to be very direct and plain, and I judge from the testimonial a copy of which you enclose that those who have most to do with your teaching appreciate it very highly. I am afraid that it would be impossible for us to arrange a lecture for our students on this subject this year. The whole question is under the direction of our physical director, who is himself a militia officer, and I think that whatever we should do in this line would have to be done under him or our Professor of Hygiene, who is much interested in questions of health and has given lectures to the students. I will send your little book to our Physical Director.

I am,

Yours sincerely,

President.
